

## Ease the Transition from Preparation to Presentation

Subtle fluting on bowl and lid enhances the food presentation and package appearance.

Tabs on lid and bowl facilitate easy removal and withstand multiple openings.

Dome Lid

Flat Lid

Dome and flat lids offer all of the same stacking, leak resistance, and gripping tab functions. Flat lids maximize storage space and provide greater portion control.

Leak resistant lids with secure rim closure eliminate messy spills.

Strategically designed sidewall offers superior strength and functionality on a wide range of applications.

Unique stacking system (bowl into lid) allows nesting for stability during transport. Each bowl nests into the lid of the same size and the lid of the next larger size.
